DUCHESNE, UT 84021

Reference: **SEAA #1275** Satisfactory Completion of Measuring Device Improvement

Dear Dorothy,

On August 7, 2008, you were provided a notice under the State Engineer's Agency Action: (SEAA) #1275 of improvements required on your pump system from the Knights Ditch. The Duchesne Water Commissioner, John Swasey reported that the required improvements were substantially complete and acceptable as required by Division of Water Rights.

We commend you and appreciate the diligence in your efforts to improve the system and to ensure that the water commissioner has appropriate tools in place to measure your water delivery. This letter serves to officially provide notice of compliance and remove the SEAA from active enforcement at the present time.

Thank you for your cooperation in attending to this matter in a timely fashion. If you have any questions, please contact Mike Silva, Distribution Engineer by phone at 801-538-7430 or by e-mail at MikeSilva@Utah.Gov.
